Excellent pressure resistance, tested to 48 Bars. Exceeds the requirements of UK Water Bylaws Scheme.

For use above and below ground on Cold Water services with Polyethylene Pipes from 20mm to 50mm all ex-stock.

Easy and quick to connect. To fit the pipe you don't need to take apart the connector you don't need to chamfer the pipe, so no time wasted! Just cut the pipe, lubricate the ring, undo the nut a few turns, push the pipe in as far as it will go, tighten the nut and it's done!

Trade Prices Shown are for one item and all exclude VAT
